ESSENTIAL INFORMATION

Our goal is to make it easy for you to specify & order our products. Some key points:

- We manufacture **two complete, separate lines** of door hardware & accessories: Genuine Hand forged Iron & Solid Cast Bronze.
- PRODUCT CODES BEGINNING WITH "H" ARE FOR HAND-FORGED IRON
PRODUCT CODES BEGINNING WITH "B" ARE FOR BRONZE
- There are DIFFERENT patinas (finishes) for hand forged iron and for bronze. Due to different materials and processes, we cannot offer an iron patina on a bronze product or vice versa.
- Products are divided into entry hardware, interior hardware (passage, privacy, dummy sets, escutcheon & lever options, door & appliance pulls, pocket door hardware etc.), accessories (surface bolts, straps, door knockers, screen door & window hardware, etc.), kitchen & bath hardware, and hospitality (keyless entries).
- FOR ARCHITECTS & DESIGN PROFESSIONALS: since we sell only through authorized dealers listed on our website, you will need to contact a dealer for pricing (including trade discounts which are discretionary to dealers).
- PRICING DEPENDS UPON ESCUTCHEON CHOICE. Price includes your choice of any lever or knob. Levers or knobs shown in the binder are what best match the design.
- Price includes your choice of any of our patinas.
- Standard door thickness is 1.75". Unless specified, our hardware will NOT work with doors thinner than 1.75". Upcharges may apply, so please inquire about options and pricing for thinner doors.
- Upcharges apply for doors thicker than 1.75". See Page 1 of the price list for details.
- Standard lead times are 8 weeks or less from receipt of order. Expedited lead time of 4-6 weeks is possible for **many** items with an upcharge - inquire for details.
- EVERY DOOR HARDWARE ORDER NEEDS PRODUCT CODE, FUNCTION, HANDING, DOOR THICKNESS, BACKSET, & PATINA.
- We welcome custom work inquiries. Please contact us with your drawings & requirements, and we will quote you the price & lead time (which varies with the degree of complexity). Custom work in solid bronze requires new pattern-making, which results in higher costs & even longer lead times, as compared to custom work in hand forged iron (since the latter is completely hand made by our master blacksmiths).

We are continuously adding new products, so DO check our website often!

We hope you like our distinctive designs & innovative patinas. Our products are also engineered for superior performance, which is why we back them with the best warranty in the business. We do believe that our hardware is Like no Other™.

DEALERS: EMAIL ORDERS TO sales@hardwarerenaissance.com

HAND FORGED IRON HARDWARE

All rights reserved. Rev 1014

3205A Mercantile Court, Santa Fe NM 87507 USA

Tel 505.983.2644 Fax 505.820.2941 sales@hardwarerenaissance.com www.hardwarerenaissance.com

HAND FORGED IRON PATINAS

HARDWARE PRICE INCLUDES CHOICE OF ANY OF THE FOLLOWING HAND APPLIED PATINAS:

PATINA NAME	PATINA CODE
Hot Wax:	HW
Antique Rose:	AR
Antique Bronze:	AB
Rust Highlights:	RH
French Red:	FF
Old Pawn Silver:	OS
Satin Nickel:	SN
Antique Copper:	AC

IMPORTANT NOTE ABOUT OUR IRON PATINAS:

Our Iron hardware is NOT RUST-PROOF. We provide an authentic wax coating only. We cannot guarantee against rust. Maintenance instructions are included with each order. All orders will need a rust-waiver signed by the dealer confirming this understanding. The patinas which hold up best against rust and which are easier to maintain are Hot Wax and Antique Rose. The plated finishes (OS, SN, AC) are likely to rust sooner and are more difficult to maintain.

All patinas are hand applied and will vary slightly from patina samples or display samples. This is due to aging of samples, and natural variations in patina which occur depending upon surface texture of the iron, temperature and humidity while applying the patina. This is considered to be a key part of the beauty and uniqueness of the hand forged iron product and not a defect.

All our patinas are living finishes and will age gracefully over time. How quickly they will age depends upon the conditions of use and maintenance.

CONTENTS

This section contains all types of sets for entry or other exterior doors.

IRON LEVER & KNOB OPTIONS	Page L1-L2

Tel 505.983.2644 Fax 505.820.2941 sales@hardwarerenaissance.com www.hardwarerenaissance.com

SOLID BRONZE PATINAS

HARDWARE PRICE INCLUDES CHOICE OF ANY OF THE FOLLOWING HAND APPLIED PATINAS:

PATINA NAME PATINA CODE

SILICON BRONZE BASE ALLOY

Midnight Gold:	MG
Cascade Green:	CG
Antique Gold:	AN
Red Autumn Leaves:	RL
Sonora Red:	SR
French Brown:	FB
Granite Verde:	GV
Tuscan Bronze:	TB
Old Copper:	OC
Navajo Silver:	NS
Khaki:	KH
Obsidian:	ON
Brushed Bronze:	BB

WHITE BRONZE BASE ALLOY

Natural White:	NW
Pewter White:	PW
Midnight White:	MW

IMPORTANT NOTE ABOUT OUR BRONZE PATINAS:

All patinas are hand applied and will vary slightly from patina samples or display samples. This is due to aging of samples, and natural variations in patina which occur depending upon the bronze casting, and temperature and humidity while applying the patina. This is considered to be a key part of the beauty and uniqueness of our hand crafted product and not a defect.

All our patinas are living finishes and will age gracefully over time. How quickly they will age depends upon the conditions of use and maintenance (a light re-waxing).
