Solid Bronze
Hand Forged Iron Hardware
Catalog

ABOUT US - THE COMPANY, THE FOUNDER

Anagha Dandekar wished to breathe new life into an industry that continued to either replicate old world hardware or mass-produce generic modern styles. Her vision was to create a brand known for fresh and distinctive design, beautiful hand-applied finishes and a high level of hand craftsmanship.

With that in mind, she co-founded Hardware Renaissance in 2002 in Santa Fe, New Mexico, USA. Since then, the company has carved a unique space in the worldwide market for high end hardware.

Anagha hails from a well-known business family in India. As an entrepreneur with a global perspective, she has introduced the west to the exceptional work of Indian craftsmen, while bringing to the east a focus on sustainable design and production.

The brand's original designs and unexpected finishes have found their way into a large variety of projects around the world – from luxury homes and estates, high-end boutique hotels, to award winning resorts. Anagha has worked with the most prestigious design firms in the USA and Europe, on projects spanning several continents.

SOLID BRONZE HARDWARE

Hardware Renaissance offers an uncommon bronze product range using high quality silicon or white bronze. The hardware is sand cast and hand chased, and finished with exceptional hand applied patinas. The rich, warm bronze is extremely tarnish-resistant and environmentally sustainable. Over 90% of the material used is recycled.

An absolutely unique selection of beautiful, hand-and-torch applied patinas are available. These are living finishes which age gracefully with exposure to the atmosphere. From modern finishes to unexpected artistic patinas, Hardware Renaissance offers a finish that is just right for your project.

HAND FORGED IRON HARDWARE

Each piece is entirely hand-forged by master blacksmiths, not cast or made from a mold. Each product is precision engineered for all types of modern doors and locks.

No company in the world has the complete range of genuine hand forged iron hardware like Hardware Renaissance.

Hardware Renaissance offers hand forged iron hardware in many distinctive patinas – all hand applied by patina artists.

[Open the gatefold to view our range of patinas in which all our iron products are available.](#)
